SALVATION BRACELET ASSEMBLY INSTRUCTIONS

(Raw Material = Difficult, Prepped Supplies = Medium, Craft Kit = Easy)

**A reference sample preassembled bracelet is included
with orders for making 100 or more bracelets.**

- 1) Cut the cord predetermined lengths if not ordered pre-cut (13" for children / up to 15" or 16" for adults).
- 2) Tie a basic overhand knot approximately one inch off-center.
- 3) Hold the cord from end to end with both hands to **determine which end has the knot tied furthest from the end of the cord.**
- 4) Starting from the longer end, thread the first 5 beads onto the cord starting with the gold bead followed by the dark bead.
- 5) When placing the red heart, the pointed end is lead onto the cord first (the heart will face the wearer and not be upside down; the gold bead signifies Heaven and is worn closest to our heart). The next two beads placed are the glow-in-the-dark bead and the green bead.
- 6) After the first 5 beads have been placed, tie another overhand knot at the end after the green bead, causing the beads to push close together.
- 7) Stagger the two loose ends of the cord together to place the purple bead first and the blue bead last onto both ends of the cord at the same time. It is easier to place the beads over both ends of the cord when they are staggered (not lined up together).
- 8) After placing the purple and blue beads, tie an overhand knot as close as possible to each loose end of the cord.

Optional: The two loose knotted ends may be shortened and or tied together in a single knot or multiple knots (after the hemp cord has gotten wet) should the owner intend to wear the bracelet continuously. When the hemp cord gets wet, it expands, and the bracelet will become snug to the wrist.

For a nice fragrance, lightly spray and dampen hemp bracelets with fabric refresher after they are assembled, spread them out, and let them dry overnight. The moisture will cause a slight expansion of the hemp cord and will resolve a "loose fit".

Most importantly, take time to study the Scripture Card beforehand and review with your disciples either during the bracelet assembly or afterwards.

Have fun! We greatly enjoy reading and sharing your ministry testimonies posted in the Guestbook of our website. Thanks! ☺
